||/ Name                                     Version                         Description
+++-============================================-================================-==================================
==========================================
ii   adduser                                3.112+nmu2                      add and remove users and groups
ii   alacarte                               0.13.2-1                        easy GNOME menu editing tool
ii   alsa-base                              1.0.23+dfsg-2                   ALSA driver configuration files
ii   alsa-utils                             1.0.23-3                        Utilities for configuring and using ALSA
ii   anacron                                2.3-14                          cron-like program that doesn't go by time
ii   apache2-mpm-prefork                    2.2.16-6+squeeze7               Apache HTTP Server - traditional non-threaded model
ii   apache2-utils                          2.2.16-6+squeeze7               utility programs for webservers
ii   apache2.2-bin                          2.2.16-6+squeeze7               Apache HTTP Server common binary files
ii   apache2.2-common                       2.2.16-6+squeeze7               Apache HTTP Server common files
ii   app-install-data                       2010.11.17                      Application Installer Data Files
ii   apt                                    0.8.10.3+squeeze1               Advanced front-end for dpkg
ii   apt-listchanges                        2.85.7+squeeze1                 package change history notification tool
ii   apt-utils                              0.8.10.3+squeeze1               APT utility programs
ii   apt-xapian-index                       0.41                            maintenance and search tools for a Xapian index of
Debian packages
ii   aptdaemon                              0.31+bzr413-1.1                 transaction based package management service
ii   aptitude                               0.6.3-3.2+squeeze1              terminal-based package manager (terminal interface
only)
ii   aspell                                 0.60.6-4                        GNU Aspell spell-checker
ii   aspell-fr                              0.50-3-7                        French dictionary for aspell
ii   at                                     3.1.12-1                        Delayed job execution and batch processing
ii   at-spi                                 1.30.1-3                        Assistive Technology Service Provider Interface
ii   autoconf                               2.67-2                          automatic configure script builder
ii   automake                               1:1.11.1-1                      A tool for generating GNU Standards-compliant
Makefiles
ii   autotools-dev                          20100122.1                      Update infrastructure for config.{guess,sub} files
ii   avahi-daemon                           0.6.27-2+squeeze1               Avahi mDNS/DNS-SD daemon
ii   baobab                                 2.30.0-2                        GNOME disk usage analyzer
ii   base-files                             6.0squeeze4                     Debian base system miscellaneous files
ii   base-passwd                            3.5.22                          Debian base system master password and group files
ii   bash                                   4.1-3                           The GNU Bourne Again SHell
ii   bash-completion                        1:1.2-3                         programmable completion for the bash shell
ii   bc                                     1.06.95-2                       The GNU bc arbitrary precision calculator language
```

```
ii  bind9-host              1:9.7.3.dfsg-1~squeeze4    Version of 'host' bundled with BIND 9.X
ii  binfmt-support          1.2.18                     Support for extra binary formats
ii  binutils                2.20.1-16                  The GNU assembler, linker and binary utilities
ii  blt                     2.4z-4.2                   the BLT extension library for Tcl/Tk - run-time
package
ii  bluez                   4.66-3                     Bluetooth tools and daemons
ii  bogofilter              1.2.2-2                    a fast Bayesian spam filter (dummy package)
ii  bogofilter-bdb          1.2.2-2                    a fast Bayesian spam filter (Berkeley DB)
ii  bogofilter-common       1.2.2-2                    a fast Bayesian spam filter (common files)
ii  brasero                 2.30.3-2                   CD/DVD burning application for GNOME
ii  brasero-common          2.30.3-2                   Common files for the Brasero CD burning
application and library
ii  browser-plugin-gnash    0.8.8-5                    GNU Shockwave Flash (SWF) player - Plugin for
Mozilla and derivatives
ii  bsd-mailx               8.1.2-0.20100314cvs-1      simple mail user agent
ii  bsdmainutils            8.0.13                     collection of more utilities from FreeBSD
ii  bsdutils                1:2.17.2-9                 Basic utilities from 4.4BSD-Lite
ii  bsh                     2.0b4-12                   Java scripting environment (BeanShell) Version 2
ii  bsh-gcj                 2.0b4-12                   Java scripting environment (BeanShell) Version 2
(native code)
ii  busybox                 1:1.17.1-8                 Tiny utilities for small and embedded systems
ii  bzip2                   1.0.5-6+squeeze1           high-quality block-sorting file compressor -
utilities
ii  ca-certificates         20090814+nmu3squeeze1      Common CA certificates
ii  capplets-data           1:2.30.1-2                 configuration applets for GNOME - data files
ii  cdrdao                  1:1.2.3-0.1                records CDs in Disk-At-Once (DAO) mode
ii  cheese                  2.30.1-2                   A tool to take pictures and videos from your webcam
ii  cheese-common           2.30.1-2                   Common files for the Cheese tool to take pictures
and videos
ii  cli-common              0.7.1                      common files between all CLI packages
ii  console-setup           1.68+squeeze2              console font and keymap setup program
ii  console-terminus        4.30-2                     Fixed-width fonts for fast reading on the Linux
console
ii  consolekit              0.4.1-4                    framework for defining and tracking users,
sessions and seats
ii  coreutils               8.5-1                      GNU core utilities
ii  cpio                    2.11-4                     GNU cpio -- a program to manage archives of files
ii  cpp                     4:4.4.5-1                  The GNU C preprocessor (cpp)
ii  cpp-4.4                 4.4.5-8                    The GNU C preprocessor
```

```
ii  cpufrequtils                     007-1+squeeze1          utilities to deal with the cpufreq Linux kernel
feature
ii  cron                             3.0pl1-116              process scheduling daemon
ii  cups                             1.4.4-7+squeeze1        Common UNIX Printing System(tm) - server
ii  cups-bsd                         1.4.4-7+squeeze1        Common UNIX Printing System(tm) - BSD commands
ii  cups-client                      1.4.4-7+squeeze1        Common UNIX Printing System(tm) - client programs
(SysV)
ii  cups-common                      1.4.4-7+squeeze1        Common UNIX Printing System(tm) - common files
ii  cups-driver-gutenprint           5.2.6-1                 printer drivers for CUPS
ii  cups-pk-helper                   0.1.0-2                 PolicyKit helper to configure cups with
fine-grained privileges
ii  cups-ppdc                        1.4.4-7+squeeze1        Common UNIX Printing System(tm) - PPD manipulation
utilities
ii  dash                             0.5.5.1-7.4             POSIX-compliant shell
ii  dasher                           4.11-1                  A graphical predictive text input system
ii  dasher-data                      4.11-1                  Data files for dasher
ii  dbus                             1.2.24-4+squeeze1       simple interprocess messaging system
ii  dbus-x11                         1.2.24-4+squeeze1       simple interprocess messaging system (X11 deps)
ii  dc                               1.06.95-2               The GNU dc arbitrary precision reverse-polish
calculator
ii  debconf                          1.5.36.1                Debian configuration management system
ii  debconf-i18n                     1.5.36.1                full internationalization support for debconf
ii  debian-archive-keyring           2010.08.28              GnuPG archive keys of the Debian archive
ii  debian-faq                       4.0.4+nmu1              The Debian FAQ
ii  debian-policy                    3.9.1.0                 Debian Policy Manual and related documents
ii  debianutils                      3.4                     Miscellaneous utilities specific to Debian
ii  defoma                           0.11.11                 Debian Font Manager -- automatic font
configuration framework
ii  deskbar-applet                   2.32.0-1                universal search and navigation bar for GNOME
ii  desktop-base                     6.0.5squeeze1           common files for the Debian Desktop
ii  desktop-file-utils               0.15-2                  Utilities for .desktop files
ii  developers-reference-fr          3.4.4                   guidelines and information for Debian developers,
in French
ii  dictionaries-common              1.5.17                  Common utilities for spelling dictionary tools
ii  diffutils                        1:3.0-1                 File comparison utilities
ii  discover                         2.1.2-5                 hardware identification system
ii  discover-data                    2.2010.10.18            Data lists for Discover hardware detection system
ii  dmidecode                        2.9-1.2                 Dump Desktop Management Interface data
ii  dmsetup                          2:1.02.48-5             The Linux Kernel Device Mapper userspace library
```

```
ii   dmz-cursor-theme                0.4.3                          Style neutral, scalable cursor theme
ii   dnsmasq-base                    2.55-2+b1                      A small caching DNS proxy and DHCP/TFTP server
ii   dnsutils                        1:9.7.3.dfsg-1~squeeze4        Clients provided with BIND
ii   doc-debian                      4.0.2                          Debian Project documentation and other documents
ii   doc-debian-fr                   3.1.3.1                        Debian Manuals, FAQs and other documents in French
ii   doc-linux-fr-text               2005.08-1                      Linux docs in French: HOWTOs, MetaFAQs in ASCII
format
ii   doc-linux-text                  2008.08-1                      Linux HOWTOs and FAQs in ASCII format
ii   docbook-xml                     4.5-7                          standard XML documentation system for software and
systems
ii   dosfstools                      3.0.9-1                        utilities for making and checking MS-DOS FAT
filesystems
ii   dpkg                            1.15.8.12                      Debian package management system
ii   dvd+rw-tools                    7.1-6                          DVD+-RW/R tools
ii   e2fslibs                        1.41.12-4stable1               ext2/ext3/ext4 file system libraries
ii   e2fsprogs                       1.41.12-4stable1               ext2/ext3/ext4 file system utilities
ii   eject                           2.1.5+deb1+cvs20081104-7.1     ejects CDs and operates CD-Changers under Linux
ii   ekiga                           3.2.7-2                        H.323 and SIP compatible VoIP client
ii   empathy                         2.30.3-1                       GNOME multi-protocol chat and call client
ii   empathy-common                  2.30.3-1                       GNOME multi-protocol chat and call client (common
files)
ii   eog                             2.30.2-1                       Eye of GNOME graphics viewer program
ii   epiphany-browser                2.30.6-1                       Intuitive GNOME web browser
ii   epiphany-browser-data           2.30.6-1                       Data files for the GNOME web browser
ii   epiphany-extensions             2.30.2-1                       Extensions for Epiphany web browser
ii   esound-common                   0.2.41-8                       Enlightened Sound Daemon - Common files
ii   espeak                          1.43.03-2                      A multi-lingual software speech synthesizer
ii   espeak-data                     1.43.03-2                      A multi-lingual software speech synthesizer:
speech data files
ii   evince                          2.30.3-2+squeeze1              Document (PostScript, PDF) viewer
ii   evince-common                   2.30.3-2+squeeze1              Document (PostScript, PDF) viewer - common files
ii   evolution                       2.30.3-5                       groupware suite with mail client and organizer
ii   evolution-common                2.30.3-5                       architecture independent files for Evolution
ii   evolution-data-server           2.30.3-2                       evolution database backend server
ii   evolution-data-server-common    2.30.3-2                       architecture independent files for Evolution Data
Server
ii   evolution-exchange               2.30.2-1                      Exchange plugin for the Evolution groupware suite
ii   evolution-plugins               2.30.3-5                       standard plugins for Evolution
ii   evolution-webcal                2.28.1-1                       webcal: URL handler for GNOME and Evolution
```
